Inherited Diseases.

No fact of nature is more pregnant with awful meaning than the fact of the inheritance of disease.

Modern science, which has illuminated so many dark corners of nature, has shed a new light on the ominous words of the Scriptures, "The sins of the fathers shall be visited upon the children unto the third and fourth generation." Fifty per cent. of cases of consumption, cancer and scrofula, run in families through inheritance. Insanity is hereditary in a marked degree, but, fortunately, like many other hereditary diseases, tends to work itself out, the stock becoming extinct. A distinguished scientist truly says: "No organ or texture of the body is exempt from the chance of being the subject of hereditary disease." Probably more chronic diseases, which permanently modify the structure and functions of the body, are more or less liable to be inherited. The important and far-reaching practical distinctions from such facts—are obvious to reflecting minds, and the best means for preventing or curing these diseases is a subject of intense interest to all. Fortunately nature has provided a remedy, which experience has attested as infallible, and the remedy is a very quiet, safe, and reliable. Specific, a pure vegetable compound—nature's antidote for all blood poisons. To the afflicted it is a blessing of inestimable value. A new and interesting treatise on "Blood and Skin Diseases" will be mailed free by addressing: THE SWISS SECRET CO., Drawer 3, Atlanta, Ga.

BANKSVILLE and VICINITY.

Crops are in the finest condition known for many years. In consequence of which the farmer rejoiceth.

George Eckley has come out flying with a fine road cart, to use on the mail route from here via Yallan to McCook.

Mr. c. a. f. of the Gazette must have lost a jack not by the way he falls at monopolies. Wonder why he dropped them from his initials.

Wm. Ralph returned from Halstead, Kan. where he has been in attendance upon his brother, on the 24th inst. He thinks his brother out of danger.

Not to be outdone by anyone the boys met and formed a base ball club. They will not join the league this season, but think that by the next they will occupy a prominent place in the same.

MARRIED:—At residence of Neis. J. Johnson, the bride's father, Sunday, May, 20th, 1888, Mr. Joe Dodge and Miss Birdie Johnson. The wedding was a very quiet affair, only relatives of the contracting parties being present. We bespeak for them a long life of happiness and pleasure.

It may be somewhat premature; but it strikes us quite forcibly that G. L. Laws would be a most appropriate candidate for governor. There is not in the state an abler man, nor one who would fill the gubernatorial chair with better satisfaction to the people. He has no superior and few are his peers in the state. We predict that he will sweep the state if nominated.

Listen ye tariff reformers. Every ton of imports received in this country means an export of its value in gold. If you increase our imports, a corresponding increase in gold exports is the consequence. What then is the ultimate end. Suspension of specie payments of course and a return of a paper upon gold. Thus you would tear down the bulwark of our world renowned financial system. Verily, the fallacies of free trade need not be magnified to be seen.

It seems to me that a man with a reasonable amount of brains would be able to perceive the morality of this democratic reform, called tariff reform. It is the duty of every parent to provide for his offspring all the comforts and luxuries in his power to bestow. Then reasoning, analogously, what does the government owe its constituency and the people at large? I answer simply the best of every thing it has in its power to bestow. It owes its manufacturers protection and its agriculturist to enable them to manufacture their wares without fear of foreign competition. It owes the producer of our raw material or legitimate nature the same adequate protection. If it (the democratic party) wants to reduce the revenue of the government, let it abolish the internal revenue. This, however, is contrary to democratic principle. The democratic party never has nor never will be able to grasp the length, breadth and depth of that word protection. The democratic party with unlimited power means eventual monarchy, coats of arms and a "bloody aristocracy." I don't apprehend that a tariff could be levied that could be called too high. If foreign articles of manufacture are excluded entirely, so much the better. We have men of abundant capital and brains, to furnish us anything and everything that we desire. The need is to be protected in their industries from foreign competition in the form of pauper labor. The best protection is the tariff subject. Foreign manufacturers are carried on by means of labor compensation which no American manufacturer can ever hope to obtain, and which I do not believe they have any wish to acquire even if it were possible. The only thing that makes the American people superior to the foreigner is the fact of their most excellent advantages of education; of living under a free government which will protect them from pauper competition and the result of the proceeding, viz: sufficient wages to enable them to live in comfort and to secure quite frequently a few of the luxuries. Take the tariff off and you bring our laborers to the level of the foreign wage earner, so to what can he get for his labor; and it is only a question of time until he is brought there intellectually and if intellectually then morally and physically. The democratic party say, with the most rare facade of fabrication, that they are the friend of the laboring man, but when they get his vote and get into congress, they assume their true colors and proceed to put laws on the statute book that will eventually grind him to the earth; making him an illiterate, poverty stricken, degraded being. The power of articulation will be the only distinguishing mark between him and the brute creation. And yet there are working men, otherwise intelligent, who continue to vote and work for the success of the democratic party, whipped in with the party lash; unable to give any reason for the manner in which they cast their ballot than that their fathers were democrats. It is high time that the laboring man was arousing himself from his lethargy, asserting his independence in an intelligent manner and showing his self-constituted friend, who is, in reality, a most treacherous foe; that he understands his little game and that he don't propose to be duped any further. It is time that the democratic party was made to understand that we can exist without foreign productions of any kind, Golden rule included. If they are so badly struck on that which is foreign, why don't they "pitch their tent in foreign lands." If we are Americans let us be Americans. "The name America must always exalt the pride of patriotism."—Washington. SYRART.

ROAD NOTICE.

The commissioner appointed to vacate a road commencing at a point 48 rods west of S. E. corner section 22 in Indianola precinct, Red Willow county, Nebraska, running thence east to the S. E. corner of the S. W. 1/4 of the S. W. 1/4 section 23 and thence north to the N. E. corner of S. W. 1/4 of S. W. 1/4 section 23 in town 3, range 29 W., terminating thereat, has reported in favor of the vacation thereof and all objections thereto or claims for damages must be filed in the county clerk's office on or before noon of the 10th day of July, A. D. 1888, or said road will be located without reference thereto. GEORGE W. ROGERS, County Clerk.

MERIT WINS.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never had a remedy that sold so well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. A. McMillen, Druggist.
